## TRACK CONFIGURATION

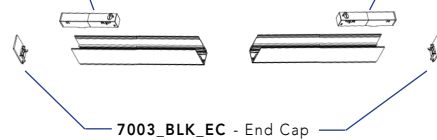

7031 - In Track Power Supply

7032 - Remote Power Supply

7011\_BLK\_LEL - Live End Left

7011\_BLK\_LER - Live End Right

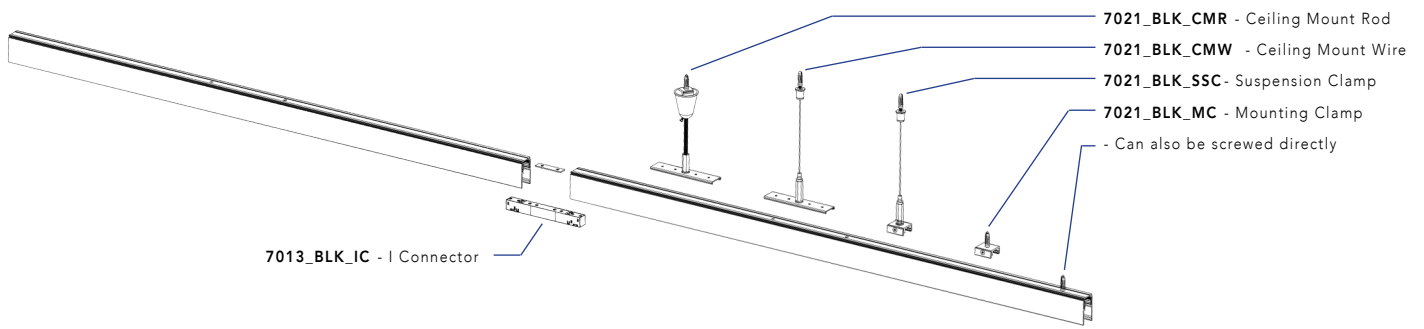

7003\_BLK\_EC - End Cap

### Notes:

When using remote power supply, a live end connection must be used.

For DALI connection, a DALI cable should be connected to the track at any point via a live end connection, In track power supply does not allow for DALI connection.
